C2h4

China Best Price Electronic Grade 99.999% 5n C2h4 Cylinder Gas Ethylene

Basic Information

- Place of Origin:
- Brand Name:
- Certification:
- Model Number:
- Minimum Order Quantity: 1kg
- Price: US \$2/kg
- Packaging Details: Cylinder/Tank
- Delivery Time: 15 days
- Payment Terms: L/C, T/T
- Supply Ability: 50000kg/month

Product Specification

- Product Name:
- Boiling Point:
- Valve:
- Melting Point:
- Appearance:
- Transport Package:
- Specification:
- Trademark:
- Origin:
- HS Code:
- Supply Ability:
- CAS No.:
- Formula:
- EINECS:
- Constituent:

Colorless 40L, 47L, 50L, ISO Tank 40L, 47L, 50L, ISO Tank CMC China 2901210000

 - Industrial Pure Air

2[#] Ethylene

Product Description

Product Description

Ethylene gas (C2H4) is a colorless and flammable hydrocarbon gas composed of two carbon atoms bonded to four hydrogen atoms. It is naturally produced by plants as a hormone and also has various industrial applications. Here are some key points about ethylene gas: Properties: Ethylene gas has several important properties:

Flammability: Ethylene is a highly flammable gas that can form explosive mixtures with air. It has a lower flammability limit (LFL) of 2.7% and an upper flammability limit (UFL) of 36%.

Odor: Ethylene gas itself is odorless. However, commercial-grade ethylene may contain a small amount of a sulfur-based odorant to aid in leak detection.

Density: Ethylene gas is slightly lighter than air, so it tends to rise and disperse in the atmosphere.

Natural Plant Hormone: Ethylene is a naturally occurring plant hormone involved in various physiological processes, including:

Fruit Ripening: Ethylene plays a crucial role in the ripening of fruits. It triggers changes in color, texture, and flavor, promoting fruit ripening and softening.

Flowering: Ethylene influences flower development and blooming in some plant species.

Senescence: Ethylene is involved in the aging and senescence of plant tissues, leading to leaf yellowing and abscission.

Industrial Applications: Ethylene gas is widely used in various industrial applications, including:

Petrochemical Industry: Ethylene is a fundamental building block for the production of numerous chemicals. It is used as a raw material in the synthesis of polyethylene (the most widely produced plastic), as well as ethylene oxide, ethylene glycol, vinyl chloride, and other important chemicals.

Agriculture: Ethylene is used in controlled environments to trigger fruit ripening and improve the uniformity of ripening in certain crops.

Welding and Cutting: Ethylene can be used as a fuel gas in oxyfuel welding and cutting processes, although it is less common than acetylene. Safety Considerations: Ethylene gas is flammable and should be handled with caution. Here are some safety considerations:

Storage and Handling: Ethylene gas should be stored in appropriate containers or cylinders designed for flammable gases. It should be stored in well-ventilated areas, away from ignition sources and heat.

Fire Hazards: Ethylene gas can form explosive mixtures with air. Therefore, precautions should be taken to prevent the accumulation of flammable concentrations and to minimize the risk of ignition.

Toxicity: Ethylene gas itself is not highly toxic. However, high concentrations of ethylene in confined spaces can displace oxygen, leading to an oxygen-deficient environment. Proper ventilation is essential when working with ethylene gas.

Overview

Basic Info.			
Molecular Weight	28.06	Density	1.178Kg/m³
Melting Point	-169.4ºC	Boiling Point	-103.9ºC
Appearance	Colorless	Un No.	1962
DOT Class	2.1	Valve	QF-30A/CGA50
Cylinder Standard	GB/ISO/DOT	Cylinder Pressure	12.5Mpa/15Mpa/20Mpa
Transport Package	40L/47?/50L	Specification	99.95%%
Trademark	CMC	Origin	China
HS Code	2901210000	Production Capacity	500000tons/Year

Specification:

CAS No.: 74-85-1 EINECS No.: 200-815-3 UN No.: UN1962 Purity: 99.95% Dot Class: 2.1 Appearance: Colorless Grade Standard: Agriculture Grade, Industrial Grade

C2H4 - Ethylene 99.95% min Units

CH4+C2H6	≤500ppm	ppm
C3 and higher	≤10	ppm
CO	≤1	ppm
CO2	≤5	ppm
O2	≤2	ppm
C2H2	≤3	ppm
S	≤1	mg/kg

H2	≤5	ppm
CH3OH	≤5	mg/kg
C2H6O	≤1	mg/kg
H2O	≤5	ppm

Packaging & Shipping				
Product	Ethylene C2H4			
Package Size	40Ltr Cylinder 50Ltr Cylinder T75 ISO Tank			
Filling Net Weight/Cyl	10Kgs	17Kgs	9 Tons	
QTY Loaded in 20'Container	250 Cyls	250 Cyls	1 Unit	
Total Net Weight	2.5 Tons	4.0 Tons	9 Tons	
Cylinder Tare Weight	50Kgs	55Kgs	8170kgs	
Valve	QF-30A / CGA350

Company Profile

Company Profile

ShangHai CMC chemical Co., Itd. is staffed by trained personnel, combine many years experience in Gas industry . We supply cylinder gas, electronic gas, etc., and the gas holder, panel, valves and fittings and other equipment, parts and engineering services to our customers in China and worldwide; The products are involved in various industrial fields, such as semiconductor chip, solar cell, LED, TFT-LCD, optical fiber, glass, laser, medicine , etc., Our mission is to partner with our global customers to provide support, solutions and quality products that are innovative, reliable, and safe. Our products mainly include: H2, O2, N2, Ar, CO2, propane, acetylene, helium, laser mixed gas, SiH4, Sih2cl2, SiHCL3, SiCL4, NH3, CF4, NF3, SF6, HCL, N2O, doping mixed gas (TMB, PH3, B2H6) and other electronic gases.
